Projects

MoneyMind:- Flutter based ERP System developed for HopHead.co pvt ltd with functionalities for payroll management, inventory management, financial reports and dashboards.
Github: <https://github.com/Archit-Jain05/MoneyMind>

Thermasure:- A real-time IoT dashboard developed using react.js for tracking and maintaining logistics of perishable goods that require constrained temperatures and environmental conditions for ensuring validity of goods.
Github: <https://github.com/Archit-Jain05/thermasure>

Student RMS:- Python Student RMS is a simple student record management system implemented in Python. It provides basic functionality for managing student records including adding, updating, deleting, and searching for student information along with AI based performance tracking using linear regression models with accuracy up to 85%.

Skills & Abilities

Programming & Development: C++, Java, Python, Kotlin, JavaScript, React.js, Node.js, REST APIs, Full-Stack Development.

Web E-Commerce Development: Shopify, WordPress

Databases & Backend: MongoDB, MySQL, Database Design, API Integration, Server-Side Development.

Cloud Integration: AWS, Google Cloud

Hardware integration: PCB Designing, IoT integration, Microcontrollers (Arduino, ESP32), SBC (Raspberry Pi), Sensor integrations

Software Engineering Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), System Design (Basics), Debugging & Optimization.

Business & Product Thinking: Business Analysis, Process Optimization, Problem-Solving, Product Thinking.

Professional Skills: Team Collaboration, Leadership, Project Coordination, Time Management, Client Communication, Presentation

Experience

Hophead PVT LTD - SDE Intern (Android | Flutter)
Jan 2024 – Dec 2024

VNZI - Full stack Web dev Intern (React.js | Shopify)
Jan 2025 – Aug 2025

BodyBox – Web Dev Freelancing
Oct 2025 – December 2025

Certifications & Courses

Networking Academy Certification – CISCO
Digital Marketing Certification – Google Career Certifications
Ethical Hacking Masterclass – Udemy
Full Stack web Development – Udemy
Machine Learning A-Z – Udemy
